

Business and Personal Success Resources

TURBOCHARGE Your Life!

Here is some of my current favorite business and professional books that I have enjoyed and found helpful to help me take my life to the next level.

Please enjoy and share with your friends and contact:

1. Maximum Achievement – The proven System of Strategies and Skills that will Unlock Your Hidden Powers to Succeed, Brian Tracy

This is an all-time classic and a wonderful read. (Brian is one of my mentors and personally endorsed by first book!)

2. The Success Principles - How to Get From Where You are to Where you Want to Be, Jack Canfield.

Another all-time classic. It is not a fast read. I find that I refer to it more as a great mini success topic reference book.

3. Start with WHY, Simon Sinek

You have to know your WHY before you start anything.

4. Mindset – The New Psychology of Success, Carol Dweck, PHD.

Good book to share with people that seem to be “stuck”.

5. 59 Seconds – Think a Little, Change a Lot, Richard Wiseman

Tips on how to improve your life through scientific research.

Wishing you the best of all the success in your professional and personal life that you aspire for.

Call me at 847-304-4500 if you would like to notch up the game for yourself or your team and bring in more business!
